Input Records - 18 AB Breeding Bird Atlas (2001-2005), 141 Birds Canada Nature Counts (1895-2024), 231 eBird (1967-2023), 166 ECCC Critical Habitat (2024), 148484 FWMIS (1963-2024), 2 iNaturalist.ca (2023), 16 iNaturalist.ca (original coordinates for obscured records) (1988-2024), 8 SK Breeding Bird Atlas (2017), 32 SK Element Occurrences (1970-2024), 35 SK Observation Points (1914-2019), 141 SK Source Feature Points (1998-2023), 422 SK Source Feature Polygons (1970-2020), 4 US Element Occurrences (1903-2020); Expert Reviews - 1 Anonymous

EBAR is relatively coarse scale data and not intended for all applications and analysis. Please see full disclaimer in metadata.

Ecosystem-based Automated Range (EBAR) Metadata

Species

National Scientific Name:	<i>Centrocercus urophasianus urophasianus</i> (Bonaparte, 1827)
Scientific Name Reference:	American Ornithologists' Union (AOU). 1957. The AOU check-list of North American birds, 5th ed. Port City Press, Inc., Baltimore, MD. 691 pp.
National English Name:	Greater Sage-Grouse urophasianus subspecies
National French Name:	Tétras des armoises urophasianus
Element National ID:	162635
Element Global ID:	101216 (go to NatureServe Explorer)
Element Code:	ABNLC12012
Endemism Type:	N
Canadian COSEWIC Name:	
Canadian COSEWIC ID:	305
English COSEWIC Common Name:	Greater Sage-Grouse urophasianus subspecies
French COSEWIC Common Name:	Tétras des armoises de la sous-espèce urophasianus

Rank/Status

Global Rank:	G3T3T4Q (reviewed April 07, 2016)
National Rank (Canada):	N1 (reviewed 2022)
Subnational Ranks (Canada):	AB=SNR, SK=S1
National Rank (United States):	None
Subnational Ranks (United States):	None
National Rank (Mexico):	None
Subnational Ranks (Mexico):	None
Canadian SARA Status:	Endangered/En voie de disparition (June 05, 2003)
Canadian COSEWIC Status:	Endangered
US ESA Status:	None

Range Map

Date Generated:	December 02, 2025
Version:	1.0
Stage:	Expert Reviewed (Partially Reviewed - National)
Scope:	Canadian
Metadata:	Primary Species - <i>Centrocercus urophasianus urophasianus</i> (Bonaparte, 1827); Secondary Species - <i>Centrocercus urophasianus</i> (Bonaparte, 1827) Input Records - 18 AB Breeding Bird Atlas (2001-2005), 141 Birds Canada Nature Counts (1895-2024), 231 eBird (1967-2023), 166 ECCC Critical Habitat (2024), 148484 FWMIS (1963-2024), 2 iNaturalist.ca (2023), 16 iNaturalist.ca (original coordinates for obscured records) (1988-2024), 8 SK Breeding Bird Atlas (2017), 32 SK Element Occurrences (1970-2024), 35 SK Observation Points (1914-2019), 141 SK Source Feature Points (1998-2023), 422 SK Source Feature Polygons (1970-2020), 4 US Element Occurrences (1903-2020); Expert Reviews - 1 Anonymous
Comments:	This range has been partially reviewed.
Disclaimer:	Please review our methods document before using EBAR. EBAR range data are relatively coarse scale and appropriate for screening and education purposes, but are not intended for all types of applications and analysis. The absence of data in any geographic areas does not necessarily mean that a species is not present. An ecoshape with a presence value does not necessarily mean that a species is present throughout the entire geographic area.

Presence Definitions:

(Please see Comments above for any exceptions)

Present - the species is found within the ecoshape based on species observation data, Element Occurrences, Source Features, Canadian Federal Critical Habitat, or expert opinion.

Presence Expected - expert opinion the species may be present, or the ecoshape overlapped with a range estimate or a habitat suitability model.

Historical - all species occurrence data within the ecoshape contains observation data greater than 40 years old or an Element Occurrence (EO) that was ranked as Extirpated or Historical (EO Rank of H, H?, X or X?), or expert opinion that the species is extirpated or historical.

Usage Type Definitions:

(Please see Comments above for any exceptions)

Breeding - the species is thought to breed within the ecoshape based on eBird Breeding and Behaviour Codes or expert opinion.

Possible Breeding - the species is probably or possibly breeding within the ecoshape based on eBird, BBA or jurisdiction Breeding and Behaviour Codes, or on expert opinion.

Map Projection:

North America Albers Equal Area Conic (WKID 4269)
