

Pituophis catenifer deserticola

Ecosystem-based Automated Range (EBAR)

Date Generated: January 26, 2022; Version: 1.0; Stage: Expert Reviewed (National); Scope: Canadian

Synonyms Used: None

0 70 140 km

Map centre: 120.8744° W 50.4416° N

EBAR is relatively coarse scale data and not intended for all applications and analysis. Please see full disclaimer in metadata.

Input Records - 68 BC Incidental Observations, 17 BC Non-sensitive Element Occurrences, 65 BC Secured Incidental Observations, 82 BC Secured Survey Observations, 69 BC Secured Telemetry Observations, 42 BC Sensitive Element Occurrences, 168 BC Survey Observations, 69 BC Telemetry Observations, 13 BISON, 14 iDigBio, 167 iNaturalist.ca, 10 VertNet; Expert Reviews - 1 Anonymous

Ecosystem-based Automated Range (EBAR) Metadata

Species

National Scientific Name:	<i>Pituophis catenifer deserticola</i> Stejneger, 1893
Scientific Name Reference:	Crother, B. I. (editor). 2017. Scientific and standard English names of amphibians and reptiles of North America north of Mexico, with comments regarding confidence in our understanding. 8th edition. SSAR Herpetological Circular 43:1-104. [Updates in SSAR North American Species Names Database at: https://ssarherps.org/cndb]
National English Name:	Great Basin Gophersnake
National French Name:	Couleuvre à nez mince du Grand Bassin
Element National ID:	163111
Element Global ID:	102387 (go to NatureServe Explorer)
Element Code:	ARADB26022
Endemism Type:	N
Canadian COSEWIC Name:	
Canadian COSEWIC ID:	722

Rank/Status

Global Rank:	G5T5 (reviewed February 02, 2016)
National Rank (Canada):	N3 (reviewed 2024)
Subnational Ranks (Canada):	BC=S3
National Rank (United States):	N5 (reviewed 1996)
Subnational Ranks (United States):	AZ=S4, CO=S4, NN=S5, NV=S5, WY=S3
National Rank (Mexico):	None
Subnational Ranks (Mexico):	None
Canadian SARA Status:	Threatened/Menacée (January 12, 2005)
Canadian COSEWIC Status:	Threatened (May 03, 2013)
US ESA Status:	None

Range Map

Date Generated:	January 26, 2022
Version:	1.0
Stage:	Expert Reviewed (National)
Scope:	Canadian
Metadata:	<p>Primary Species Name - <i>Pituophis catenifer deserticola</i> Stejneger, 1893</p> <p>Input Records - 68 BC Incidental Observations, 17 BC Non-sensitive Element Occurrences, 65 BC Secured Incidental Observations, 82 BC Secured Survey Observations, 69 BC Secured Telemetry Observations, 42 BC Sensitive Element Occurrences, 168 BC Survey Observations, 69 BC Telemetry Observations, 13 BISON, 14 iDigBio, 167 iNaturalist.ca, 10 VertNet; Expert Reviews - 1 Anonymous</p>
Comments:	<p>None</p> <p>Please see spatial data for Ecoshape-level reviewer comments.</p>
Disclaimer:	<p>Please review our methods document before using EBAR.</p> <p>EBAR range data are relatively coarse scale and appropriate for screening and education purposes, but are not intended for all types of applications and analysis.</p> <p>The absence of data in any geographic areas does not necessarily mean that a species is not present.</p> <p>An ecoshape with a presence value does not necessarily mean that a species is present throughout the entire geographic area.</p>
Presence Definitions:	<p>(Please see Comments above for any exceptions)</p> <p>Present - the species is found within the ecoshape based on species observation data, Element Occurrences, Source Features, Canadian Federal Critical Habitat, or expert opinion.</p> <p>Presence Expected - expert opinion the species may be present, or the ecoshape overlapped with a range estimate or a habitat suitability model.</p> <p>Historical - all species occurrence data within the ecoshape contains observation data greater than 40 years old or an Element Occurrence (EO) that was ranked as Extirpated or Historical (EO Rank of H, H?, X or X?).</p>
Usage Type Definitions:	<p>(Please see Comments above for any exceptions)</p> <p>Breeding - the species is thought to breed within the ecoshape based on eBird Breeding and Behaviour Codes or expert opinion.</p> <p>Possible Breeding - the species is probably or possibly breeding within the ecoshape based on eBird, BBA or jurisdiction Breeding and Behaviour Codes, or on expert opinion.</p>
Map Projection:	North America Albers Equal Area Conic (WKID 4269)
