

# *Passerculus sandwichensis princeps*

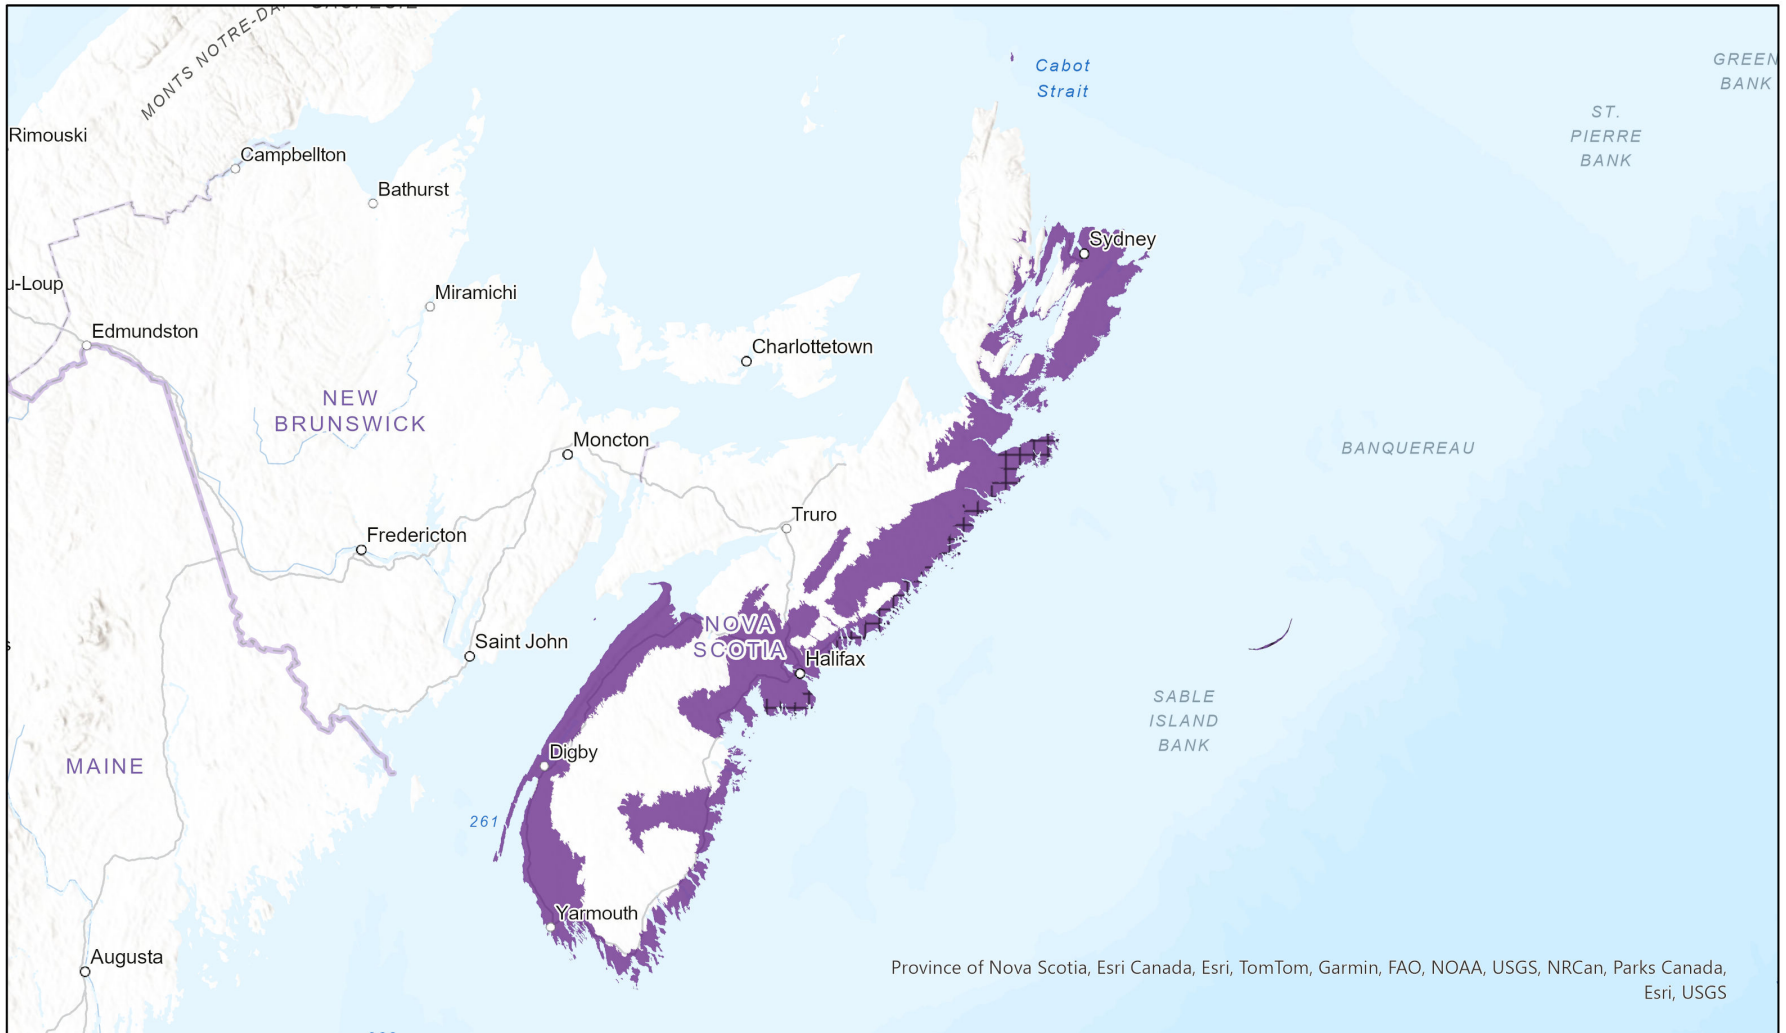

## Ecosystem-based Automated Range (EBAR)

Date Generated: April 3, 2024; Version: 1.0; Stage: Expert Reviewed (National); Scope: Canadian

Synonyms Used: None

- Present
- Breeding
- Presence Expected
- Possible Breeding
- Historical

Province of Nova Scotia, Esri Canada, Esri, TomTom, Garmin, FAO, NOAA, USGS, NRCan, Parks Canada, Esri, USGS

Input Records - 73 ACCDC Observations, 2319 eBird, 87 iNaturalist.ca; Expert Reviews - John Klymko

Map centre: 62.4493° W 45.2141° N

EBAR is relatively coarse scale data and not intended for all applications and analysis. Please see full disclaimer in metadata.

## Ecosystem-based Automated Range (EBAR) Metadata

---

### Species

National Scientific Name:	<i>Passerculus sandwichensis princeps</i> Maynard, 1872
Scientific Name Reference:	American Ornithologists' Union (AOU). 1957. The AOU check-list of North American birds, 5th ed. Port City Press, Inc., Baltimore, MD. 691 pp.
National English Name:	Ipswich Sparrow
National French Name:	Bruant des prés de la sous-espèce princeps
Element National ID:	167864
Element Global ID:	102749 ( <a href="#">go to NatureServe Explorer</a> )
Element Code:	ABPBX9901C
Endemism Type:	B
Canadian COSEWIC Name:	
Canadian COSEWIC ID:	49

## Rank/Status

<b>Global Rank:</b>	G5T1 (reviewed April 09, 2016)
<b>National Rank (Canada):</b>	N1B (reviewed 2012)
<b>Subnational Ranks (Canada):</b>	NB=SNA, NS=S1B
<b>National Rank (United States):</b>	N1N (reviewed 1997)
<b>Subnational Ranks (United States):</b>	CT=S1N, NJ=SXB,S3N
<b>National Rank (Mexico):</b>	None
<b>Subnational Ranks (Mexico):</b>	None
<b>Canadian SARA Status:</b>	Special Concern/Préoccupante (June 05, 2003)
<b>Canadian COSEWIC Status:</b>	Special Concern (May 01, 2023)
<b>US ESA Status:</b>	None

## Range Map

<b>Date Generated:</b>	April 03, 2024
<b>Version:</b>	1.0
<b>Stage:</b>	Expert Reviewed (National)
<b>Scope:</b>	Canadian
<b>Metadata:</b>	Primary Species - <i>Passerculus sandwichensis princeps</i> Maynard, 1872 Input Records - 73 ACCDC Observations, 2319 eBird, 87 iNaturalist.ca; Expert Reviews - John Klymko
<b>Comments:</b>	None <a href="#">Please see spatial data for Ecoshape-level reviewer comments.</a>
<b>Disclaimer:</b>	Please review our <a href="#">methods document</a> before using EBAR.  EBAR range data are relatively coarse scale and appropriate for screening and education purposes, but are not intended for all types of applications and analysis.  The absence of data in any geographic areas does not necessarily mean that a species is not present.  An ecoshape with a presence value does not necessarily mean that a species is present throughout the entire geographic area.
<b>Presence Definitions:</b>	(Please see Comments above for any exceptions)  Present - the species is found within the ecoshape based on species observation data, Element Occurrences, Source Features, Canadian Federal Critical Habitat, or expert opinion.  Presence Expected - expert opinion the species may be present, or the ecoshape overlapped with a range estimate or a habitat suitability model.  Historical - all species occurrence data within the ecoshape contains observation data greater than 40 years old or an Element Occurrence (EO) that was ranked as Extirpated or Historical (EO Rank of H, H?, X or X?).
<b>Usage Type Definitions:</b>	(Please see Comments above for any exceptions)  Breeding - the species is thought to breed within the ecoshape based on eBird Breeding and Behaviour Codes or expert opinion.  Possible Breeding - the species is probably or possibly breeding within the ecoshape based on eBird, BBA or jurisdiction Breeding and Behaviour Codes, or on expert opinion.
<b>Map Projection:</b>	North America Albers Equal Area Conic (WKID 4269)
