

# *Dicrostonyx nunatakensis*

## Ecosystem-based Automated Range (EBAR)

- Present
- Presence Expected
- Historical

Date Generated: November 10, 2020; Version: 1.0; Stage: Expert Reviewed (Low Star Rating); Scope: Global

Synonyms Used: *Dicrostonyx groenlandicus nunatakensis*

0 10 20 km

Input Records - 12 BISON, 12 GBIF, 12 iDigBio, 15 VertNet, 3 YT Element Occurrences, 4 YT Source Feature Points; Expert Reviews - 1

Map centre: 139.2487°W 64.5831°N

EBAR is relatively coarse scale data and not intended for all applications and analysis. Please see full disclaimer in metadata.

## Ecosystem-based Automated Range (EBAR) Metadata

---

### Species

National Scientific Name:	<i>Dicrostonyx nunatakensis</i> Youngman, 1967
Scientific Name Reference:	Wilson, D. E., and D. M. Reeder (editors). 2005. Mammal species of the world: a taxonomic and geographic reference. Third edition. The Johns Hopkins University Press, Baltimore. Two volumes. 2,142 pp. [As modified by ASM the Mammal Diversity Database (MDD) at <a href="https://www.mammaldiversity.org/index.html">https://www.mammaldiversity.org/index.html</a> ]
National English Name:	Ogilvie Mountains Collared Lemming
National French Name:	Lemming du Yukon
Element National ID:	165204
Element Global ID:	102937 ( <a href="#">go to NatureServe Explorer</a> )
Element Code:	AMAFF18017
Endemism Type:	Y
Canadian COSEWIC Name:	
Canadian COSEWIC ID:	

## Rank/Status

Global Rank:	G2 (reviewed April 04, 2016)
National Rank (Canada):	N2 (reviewed 2024)
Subnational Ranks (Canada):	YT=S2
National Rank (United States):	None
Subnational Ranks (United States):	None
National Rank (Mexico):	None
Subnational Ranks (Mexico):	None
Canadian SARA Status:	None
Canadian COSEWIC Status:	None
US ESA Status:	None

## Range Map

Date Generated:	November 10, 2020
Version:	1.0
Stage:	Expert Reviewed (Low Star Rating)
Scope:	Global
Metadata:	<p>Primary Species Name - <i>Dicrostonyx nunatakensis</i> (Wilson and Ruff, 1999); Synonyms - <i>Dicrostonyx groenlandicus nunatakensis</i> (Wilson and Ruff, 1999)</p> <p>Input Records - 12 BISON, 12 GBIF, 12 iDigBio, 15 VertNet, 3 YT Element Occurrences, 4 YT Source Feature Points; Expert Reviews - 1</p>
Comments:	This range has a low star rating.
Disclaimer:	<p>Please review our <a href="#">methods document</a> before using EBAR.</p> <p>EBAR range data are relatively coarse scale and appropriate for screening and education purposes, but are not intended for all types of applications and analysis.</p> <p>The absence of data in any geographic areas does not necessarily mean that a species is not present.</p> <p>An ecoshape with a presence value does not necessarily mean that a species is present throughout the entire geographic area.</p>
Presence Definitions:	<p>(Please see Comments above for any exceptions)</p> <p>Present - the species is found within the ecoshape based on species observation data, Element Occurrences, Source Features, Canadian Federal Critical Habitat, or expert opinion.</p> <p>Presence Expected - expert opinion the species may be present, or the ecoshape overlapped with a range estimate or a habitat suitability model.</p> <p>Historical - all species occurrence data within the ecoshape contains observation data greater than 40 years old or an Element Occurrence (EO) that was ranked as Extirpated or Historical (EO Rank of H, H?, X or X?), or expert opinion that the species is extirpated or historical.</p>
Usage Type Definitions:	<p>(Please see Comments above for any exceptions)</p> <p>Breeding - the species is thought to breed within the ecoshape based on eBird Breeding and Behaviour Codes or expert opinion.</p> <p>Possible Breeding - the species is probably or possibly breeding within the ecoshape based on eBird, BBA or jurisdiction Breeding and Behaviour Codes, or on expert opinion.</p>
Map Projection:	North America Albers Equal Area Conic (WKID 4269)
