

# *Omus audouini*

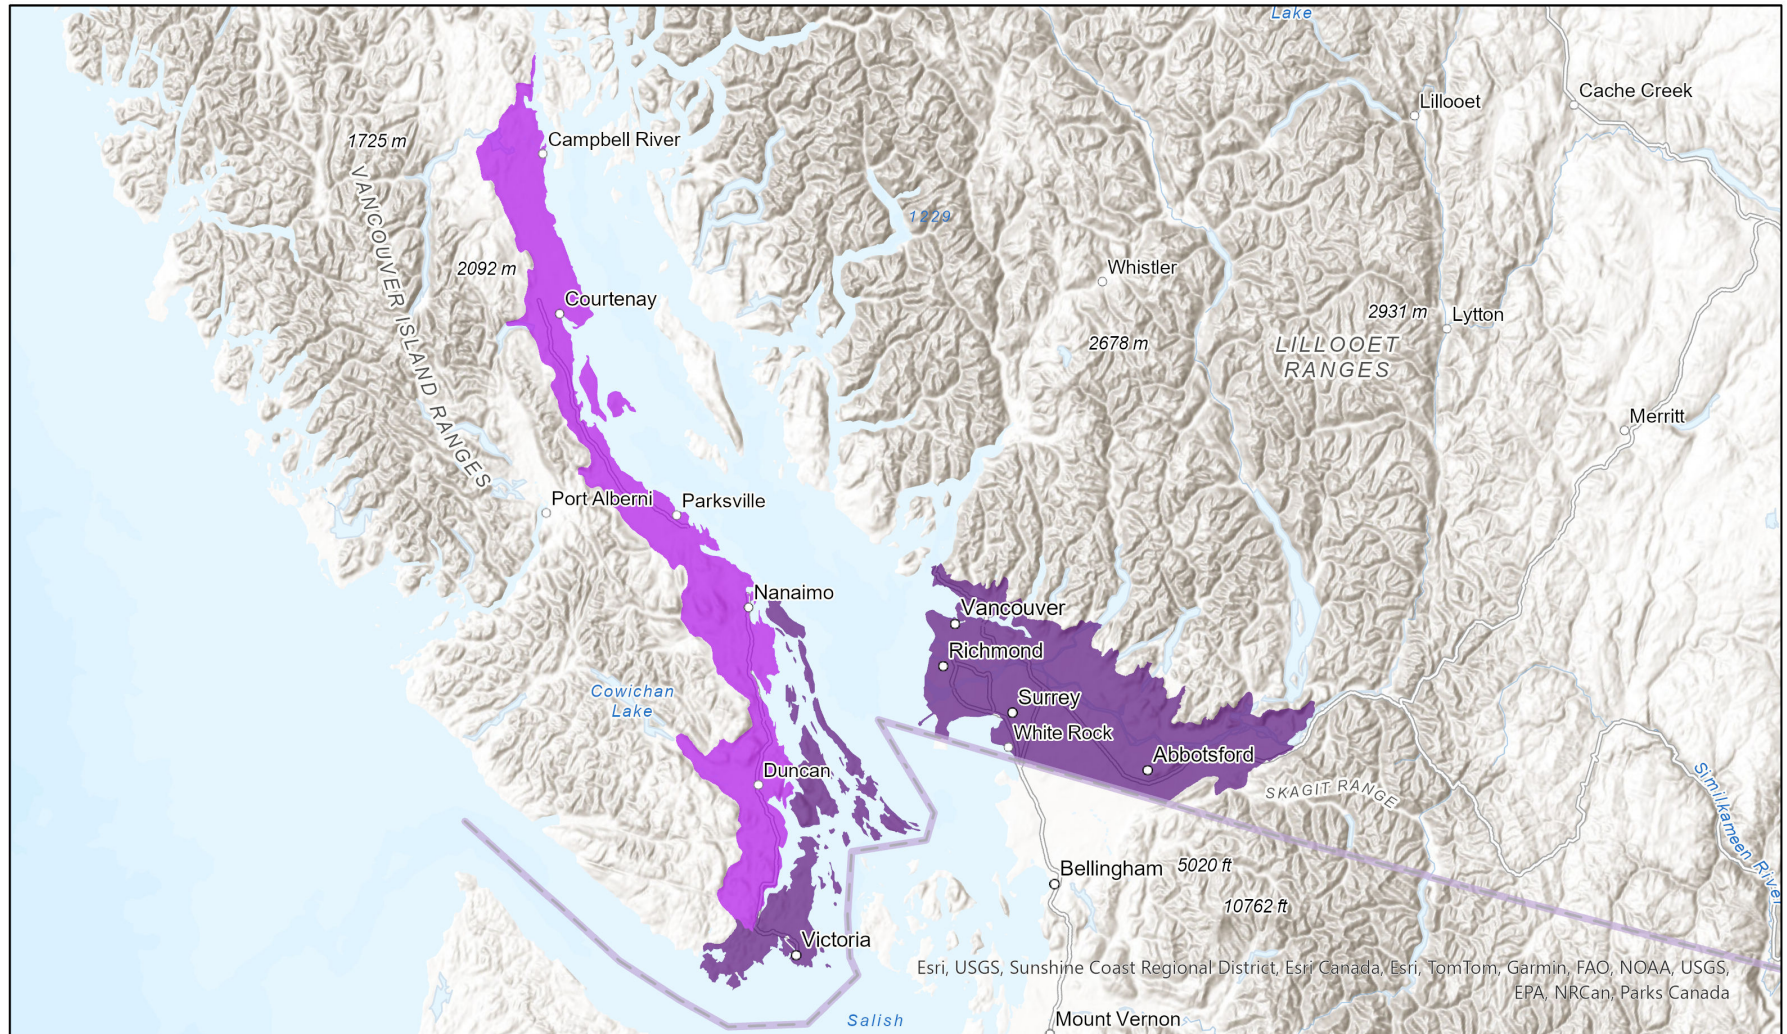

- Present
- Presence Expected
- Historical

## Ecosystem-based Automated Range (EBAR)

Date Generated: March 14, 2023; Version: 1.0; Stage: Expert Reviewed (National); Scope: Canadian

Synonyms Used: None

0 40 80 km

Input Records - 6 BC Non-sensitive Element Occurrences, 2 BISON, 9 GBIF, 2 iDigBio, 9 iNaturalist.ca, 2 Royal British Columbia Museum; Expert Reviews - BC Experts

Map centre: 123.4788° W 49.4519° N

EBAR is relatively coarse scale data and not intended for all applications and analysis. Please see full disclaimer in metadata.

## Ecosystem-based Automated Range (EBAR) Metadata

---

### Species

National Scientific Name:	<i>Omus audouini</i> Reiche, 1838
Scientific Name Reference:	Bousquet, Y., P. Bouchard, A.E. Davies, and D.S. Sikes. 2013. Checklist of beetles (Coleoptera) of Canada and Alaska, second edition. Pensoft Series Faunistica No 109. [Downloadable checklist available: Bousquet, Y., P. Bouchard, A.E. Davies, and D.S. Sikes. 2013. Data associated with Checklist of beetles (Coleoptera) of Canada and Alaska. Second Edition. Data Paper. ZooKeys 360:1-44. <a href="http://dx.doi.org/10.5886/998dbs2a">http://dx.doi.org/10.5886/998dbs2a</a> ]
National English Name:	Audouin's Night-stalking Tiger Beetle
National French Name:	Cicindèle d'Audouin; Cicindèle d'Audouin
Element National ID:	173761
Element Global ID:	112271 ( <a href="#">go to NatureServe Explorer</a> )
Element Code:	IICOL0D040
Endemism Type:	N
Canadian COSEWIC Name:	
Canadian COSEWIC ID:	1243

## Rank/Status

<b>Global Rank:</b>	G5 (reviewed June 03, 2008)
<b>National Rank (Canada):</b>	N1 (reviewed 2022)
<b>Subnational Ranks (Canada):</b>	BC=S1
<b>National Rank (United States):</b>	N5 (reviewed 1997)
<b>Subnational Ranks (United States):</b>	CA=SNR, OR=S5, WA=S5
<b>National Rank (Mexico):</b>	None
<b>Subnational Ranks (Mexico):</b>	None
<b>Canadian SARA Status:</b>	Threatened/Menacée (May 30, 2018)
<b>Canadian COSEWIC Status:</b>	Threatened (November 01, 2013)
<b>US ESA Status:</b>	None

## Range Map

<b>Date Generated:</b>	March 14, 2023
<b>Version:</b>	1.0
<b>Stage:</b>	Expert Reviewed (National)
<b>Scope:</b>	Canadian
<b>Metadata:</b>	Primary Species - <i>Omus audouini</i> Reiche, 1838 Input Records - 6 BC Non-sensitive Element Occurrences, 2 BISON, 9 GBIF, 2 iDigBio, 9 iNaturalist.ca, 2 Royal British Columbia Museum; Expert Reviews - BC Experts
<b>Comments:</b>	None <a href="#">Please see spatial data for Ecoshape-level reviewer comments.</a>
<b>Disclaimer:</b>	Please review our <a href="#">methods document</a> before using EBAR.  EBAR range data are relatively coarse scale and appropriate for screening and education purposes, but are not intended for all types of applications and analysis.  The absence of data in any geographic areas does not necessarily mean that a species is not present.  An ecoshape with a presence value does not necessarily mean that a species is present throughout the entire geographic area.
<b>Presence Definitions:</b>	(Please see Comments above for any exceptions)  Present - the species is found within the ecoshape based on species observation data, Element Occurrences, Source Features, Canadian Federal Critical Habitat, or expert opinion.  Presence Expected - expert opinion the species may be present, or the ecoshape overlapped with a range estimate or a habitat suitability model.  Historical - all species occurrence data within the ecoshape contains observation data greater than 40 years old or an Element Occurrence (EO) that was ranked as Extirpated or Historical (EO Rank of H, H?, X or X?).
<b>Usage Type Definitions:</b>	(Please see Comments above for any exceptions)  Breeding - the species is thought to breed within the ecoshape based on eBird Breeding and Behaviour Codes or expert opinion.  Possible Breeding - the species is probably or possibly breeding within the ecoshape based on eBird, BBA or jurisdiction Breeding and Behaviour Codes, or on expert opinion.
<b>Map Projection:</b>	North America Albers Equal Area Conic (WKID 4269)
