

# *Buxbaumia minakatae*

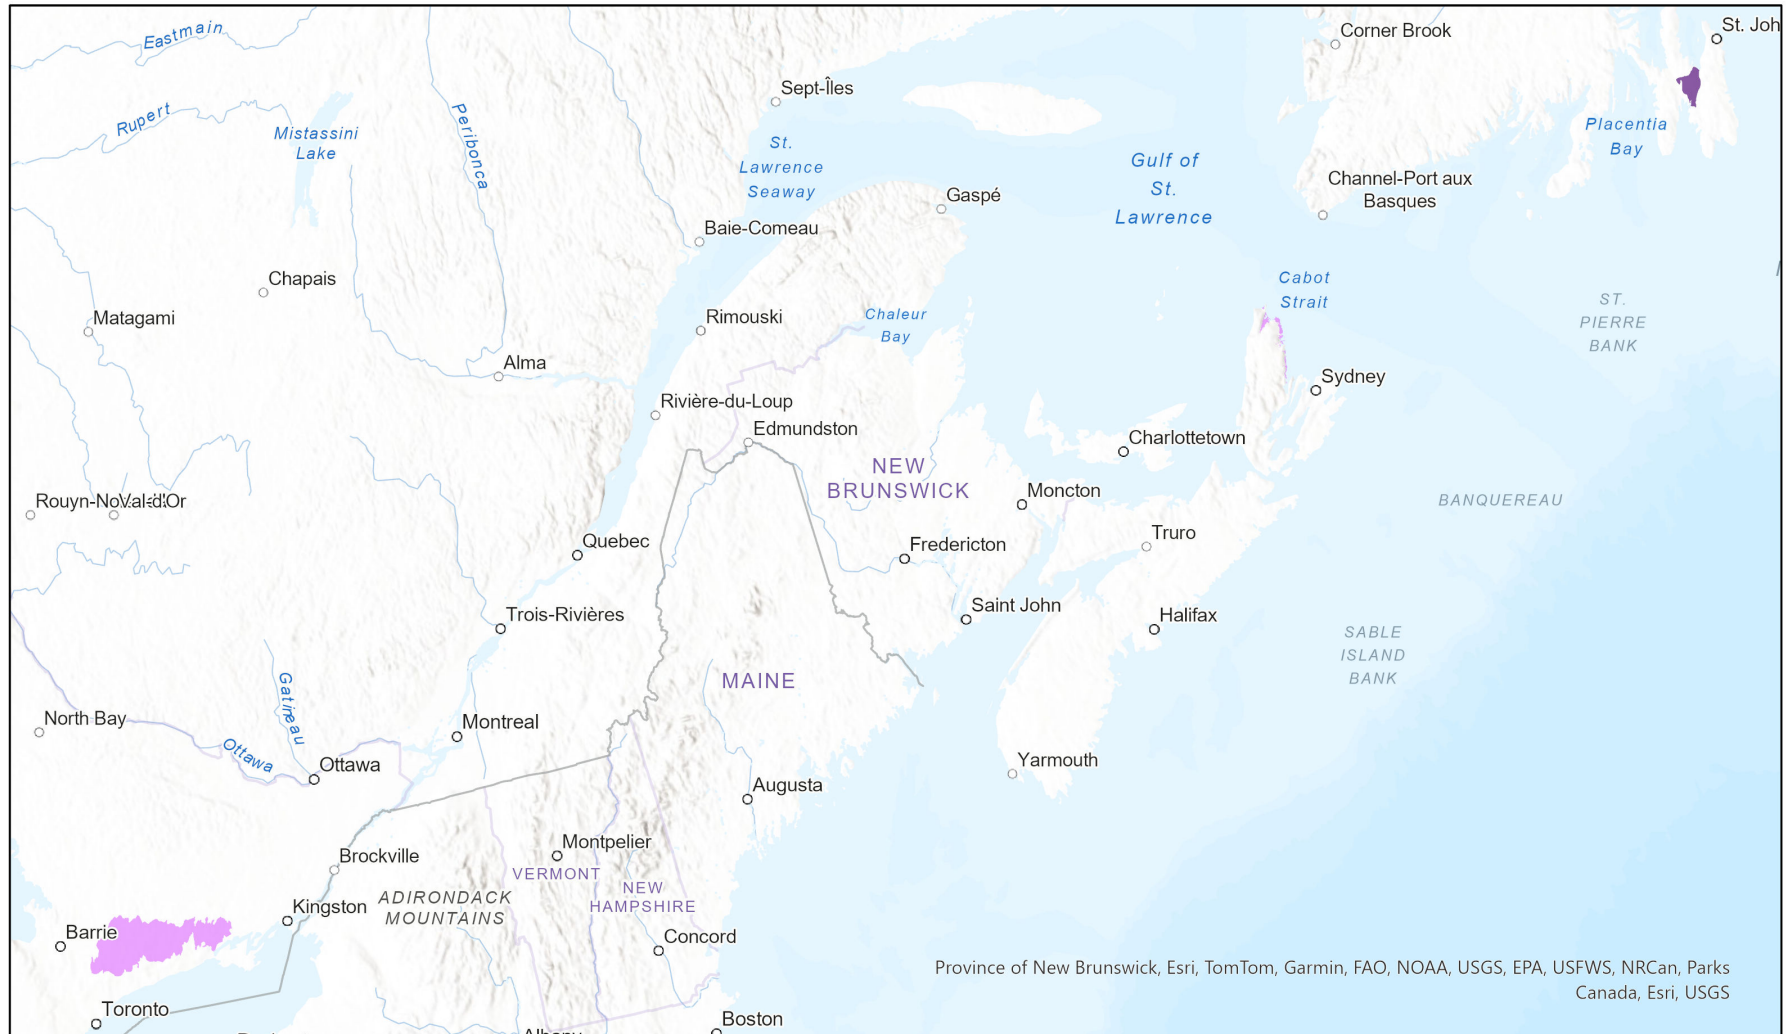

## Ecosystem-based Automated Range (EBAR)

- Present
- Presence Expected
- Historical

Date Generated: March 9, 2024; Version: 1.0; Stage: Expert Reviewed (National); Scope: Canadian

Synonyms Used: None

Province of New Brunswick, Esri, TomTom, Garmin, FAO, NOAA, USGS, EPA, USFWS, NRCan, Parks Canada, Esri, USGS

Input Records - 2 ACCDC Observations, 1 GBIF, 1 ON Element Occurrences, 1 ON Observations and Source Features; Expert Reviews - Sean Blaney, Scott Schuette

Map centre: 66.5983° W 46.3024° N

EBAR is relatively coarse scale data and not intended for all applications and analysis. Please see full disclaimer in metadata.

## Ecosystem-based Automated Range (EBAR) Metadata

---

### Species

National Scientific Name:	<i>Buxbaumia minakatae</i> Okam.
Scientific Name Reference:	Flora of North America Editorial Committee. 2007b. Flora of North America North of Mexico. Vol. 27. Bryophytes: Mosses, Part 1. Oxford University Press, New York. xxi + 713 pp.
National English Name:	Minakata's Hump-backed Elves Moss
National French Name:	Buxbaumie de Minakata
Element National ID:	189378
Element Global ID:	125771 ( <a href="#">go to NatureServe Explorer</a> )
Element Code:	NBMUS1B020
Endemism Type:	N
Canadian COSEWIC Name:	
Canadian COSEWIC ID:	

## Rank/Status

<b>Global Rank:</b>	G2G4 (reviewed May 02, 2009)
<b>National Rank (Canada):</b>	N2? (reviewed 2022)
<b>Subnational Ranks (Canada):</b>	NF=S2?, NS=S1S2, ON=S1
<b>National Rank (United States):</b>	NNR
<b>Subnational Ranks (United States):</b>	MA=SNR, MI=SNR, NC=SH, NY=SH, OH=S1, PA=S1, VA=SNR, VT=S1
<b>National Rank (Mexico):</b>	None
<b>Subnational Ranks (Mexico):</b>	None
<b>Canadian SARA Status:</b>	None
<b>Canadian COSEWIC Status:</b>	None
<b>US ESA Status:</b>	None

## Range Map

<b>Date Generated:</b>	March 09, 2024
<b>Version:</b>	1.0
<b>Stage:</b>	Expert Reviewed (National)
<b>Scope:</b>	Canadian
<b>Metadata:</b>	Primary Species - <i>Buxbaumia minakatae</i> Okam. Input Records - 2 ACCDC Observations, 1 GBIF, 1 ON Element Occurrences, 1 ON Observations and Source Features; Expert Reviews - Sean Blaney, Scott Schuette
<b>Comments:</b>	None <a href="#">Please see spatial data for Ecoshape-level reviewer comments.</a>
<b>Disclaimer:</b>	Please review our <a href="#">methods document</a> before using EBAR.  EBAR range data are relatively coarse scale and appropriate for screening and education purposes, but are not intended for all types of applications and analysis.  The absence of data in any geographic areas does not necessarily mean that a species is not present.  An ecoshape with a presence value does not necessarily mean that a species is present throughout the entire geographic area.
<b>Presence Definitions:</b>	(Please see Comments above for any exceptions)  Present - the species is found within the ecoshape based on species observation data, Element Occurrences, Source Features, Canadian Federal Critical Habitat, or expert opinion.  Presence Expected - expert opinion the species may be present, or the ecoshape overlapped with a range estimate or a habitat suitability model.  Historical - all species occurrence data within the ecoshape contains observation data greater than 40 years old or an Element Occurrence (EO) that was ranked as Extirpated or Historical (EO Rank of H, H?, X or X?).
<b>Usage Type Definitions:</b>	(Please see Comments above for any exceptions)  Breeding - the species is thought to breed within the ecoshape based on eBird Breeding and Behaviour Codes or expert opinion.  Possible Breeding - the species is probably or possibly breeding within the ecoshape based on eBird, BBA or jurisdiction Breeding and Behaviour Codes, or on expert opinion.
<b>Map Projection:</b>	North America Albers Equal Area Conic (WKID 4269)
