EBAR is relatively coarse scale data and not intended for all applications and analysis. Please see full disclaimer in metadata.

# Ecosystem-based Automated Range (EBAR) Metadata

## Species

| National Scientific Name:  | Chrysemys picta pop. 2   |
|----------------------------|--|
| Scientific Name Reference: | Committee on the Status of Endangered Wildlife in Canada (COSEWIC). 2016a. COSEWIC Assessment Results, November<br>2016. Committee on the Status of Endangered Wildlife in Canada. |
| National English Name:     | Western Painted Turtle - Intermountain - Rocky Mountain population   |
| National French Name:      | Tortue peinte de l'Ouest - Population intramontagnarde - des Rocheuses   |
| Element National ID:       | 793128   |
| Element Global ID:         | 793127 ( <u>go to NatureServe Explorer</u> )   |
| Element Code:              | ARAAD01016   |
| Endemism Type:             | Ν  |
| Canadian COSEWIC Name:     |  |
| Canadian COSEWIC ID:       | 903  |
|                            |  |

## Rank/Status

| Global Rank:                       | G5T2T3Q (reviewed January 02, 2008)              |
|------------------------------------|--|
| National Rank (Canada):            | N3? (reviewed 2019)                              |
| Subnational Ranks (Canada):        | BC=S3?   |
| National Rank (United States):     | None   |
| Subnational Ranks (United States): | None   |
| National Rank (Mexico):            | None   |
| Subnational Ranks (Mexico):        | None   |
| Canadian SARA Status:              | Special Concern/Préoccupante (December 13, 2007) |
| Canadian COSEWIC Status:           | Special Concern (November 27, 2016)              |
| US ESA Status:                     | None   |

## Range Map

| Date Generated:         | February 23, 2022  |
|-------------------------|--|
| Version:                | 1.0  |
| Stage:                  | Expert Reviewed  |
| Scope:                  | Global   |
| Metadata:               | Primary Species Name - <i>Chrysemys picta pop. 2</i><br>Input Records - 37 BC Incidental Observations, 118 BC Non-sensitive Element Occurrences, 24 BC Survey Observations;<br>Expert Reviews - Ian Adams, 1 Anonymous     |
| Comments:               | None<br><u>Please see spatial data for Ecoshape-level reviewer comments</u> .  |
| Disclaimer:             | Please review our methods document before using EBAR.  |
|                         | EBAR range data are relatively coarse scale and appropriate for screening and education purposes, but are not intended for all types of applications and analysis.   |
|                         | The absence of data in any geographic areas does not necessarily mean that a species is not present.   |
|                         | An ecoshape with a presence value does not necessarily mean that a species is present throughout the entire geographic area.   |
| Presence Definitions:   | (Please see Comments above for any exceptions)   |
|                         | Present - the species is found within the ecoshape based on species observation data, Element Occurrences, Source Features, Canadian Federal Critical Habitat, or expert opinion.  |
|                         | Presence Expected - expert opinion the species may be present, or the ecoshape overlapped with a range estimate or a habitat suitability model.  |
|                         | Historical - all species occurrence data within the ecoshape contains observation data greater than 40 years old or an<br>Element Occurrence (EO) that was ranked as Extirpated or Historical (EO Rank of H, H?, X or X?). |
| Usage Type Definitions: | (Please see Comments above for any exceptions)   |
|                         | Breeding - the species is thought to breed within the ecoshape based on eBird Breeding and Behaviour Codes or expert opinion.  |
|                         | Possible Breeding - the species is probably or possibly breeding within the ecoshape based on eBird, BBA or jurisdiction Breeding and Behaviour Codes, or on expert opinion.   |
| Map Projection:         | North America Albers Equal Area Conic (WKID 4269)  |
|                         |  |
