

# *Symphyotrichum nahanniense*

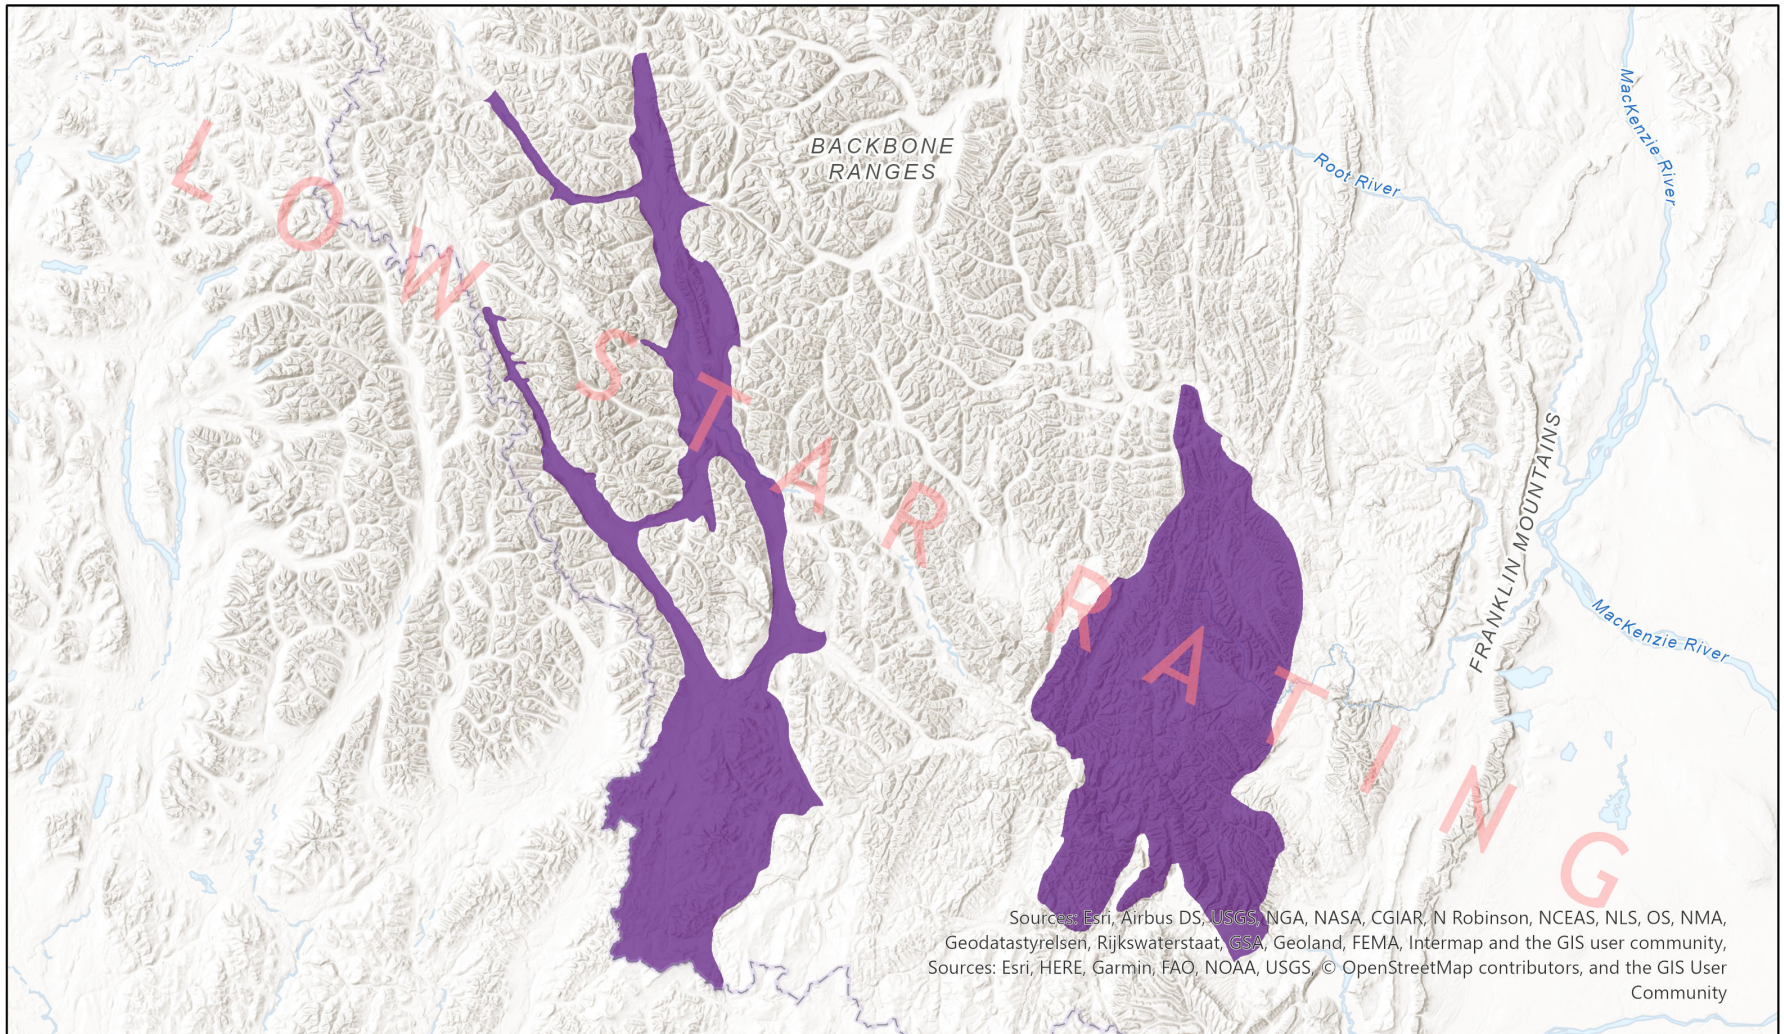

- Present
- Presence Expected
- Historical

## Ecosystem-based Automated Range (EBAR)

Date Generated: July 15, 2022; Version: 1.0; Stage: Expert Reviewed (Low Star Rating); Scope: Global

Synonyms Used: None

0 30 60 km

Input Records - 15 GBIF, 5 iNaturalist.ca, 15 iNaturalist.org, 15 NCC GBIF Download, 8 NT Element Occurrences; Expert Reviews - Allan Harris, Doug Tate

Map centre: 126.2785°W 61.8841°N

EBAR is relatively coarse scale data and not intended for all applications and analysis. Please see full disclaimer in metadata.

## Ecosystem-based Automated Range (EBAR) Metadata

---

### Species

National Scientific Name:	<i>Symphotrichum nahanniense</i> (Cody) Semple
Scientific Name Reference:	Flora of North America Editorial Committee. 2006b. Flora of North America North of Mexico. Vol. 20. Magnoliophyta: Asteridae, part 7: Asteraceae, part 2. Oxford Univ. Press, New York. xxii + 666 pp.
National English Name:	Nahanni Aster
National French Name:	Aster de la Nahanni
Element National ID:	800171
Element Global ID:	800170 ( <a href="#">go to NatureServe Explorer</a> )
Element Code:	PDASTE8940
Endemism Type:	Y
Canadian COSEWIC Name:	
Canadian COSEWIC ID:	1257

## Rank/Status

<b>Global Rank:</b>	G3 (reviewed August 30, 2016)
<b>National Rank (Canada):</b>	N3 (reviewed 2016)
<b>Subnational Ranks (Canada):</b>	NT=S3
<b>National Rank (United States):</b>	None
<b>Subnational Ranks (United States):</b>	None
<b>National Rank (Mexico):</b>	None
<b>Subnational Ranks (Mexico):</b>	None
<b>Canadian SARA Status:</b>	Special Concern/Préoccupante (February 02, 2018)
<b>Canadian COSEWIC Status:</b>	Special Concern (May 02, 2014)
<b>US ESA Status:</b>	None

## Range Map

<b>Date Generated:</b>	July 15, 2022
<b>Version:</b>	1.0
<b>Stage:</b>	Expert Reviewed (Low Star Rating)
<b>Scope:</b>	Global
<b>Metadata:</b>	Primary Species - <i>Symphyotrichum nahanniense</i> (Cody) Semple Input Records - 15 GBIF, 5 iNaturalist.ca, 15 iNaturalist.org, 15 NCC GBIF Download, 8 NT Element Occurrences; Expert Reviews - Allan Harris, Doug Tate
<b>Comments:</b>	This range has a low star rating.
<b>Disclaimer:</b>	Please review our <a href="#">methods document</a> before using EBAR.  EBAR range data are relatively coarse scale and appropriate for screening and education purposes, but are not intended for all types of applications and analysis.  The absence of data in any geographic areas does not necessarily mean that a species is not present.  An ecoshape with a presence value does not necessarily mean that a species is present throughout the entire geographic area.
<b>Presence Definitions:</b>	(Please see Comments above for any exceptions)  Present - the species is found within the ecoshape based on species observation data, Element Occurrences, Source Features, Canadian Federal Critical Habitat, or expert opinion.  Presence Expected - expert opinion the species may be present, or the ecoshape overlapped with a range estimate or a habitat suitability model.  Historical - all species occurrence data within the ecoshape contains observation data greater than 40 years old or an Element Occurrence (EO) that was ranked as Extirpated or Historical (EO Rank of H, H?, X or X?).
<b>Usage Type Definitions:</b>	(Please see Comments above for any exceptions)  Breeding - the species is thought to breed within the ecoshape based on eBird Breeding and Behaviour Codes or expert opinion.  Possible Breeding - the species is probably or possibly breeding within the ecoshape based on eBird, BBA or jurisdiction Breeding and Behaviour Codes, or on expert opinion.
<b>Map Projection:</b>	North America Albers Equal Area Conic (WKID 4269)
