

# *Acris blanchardi*

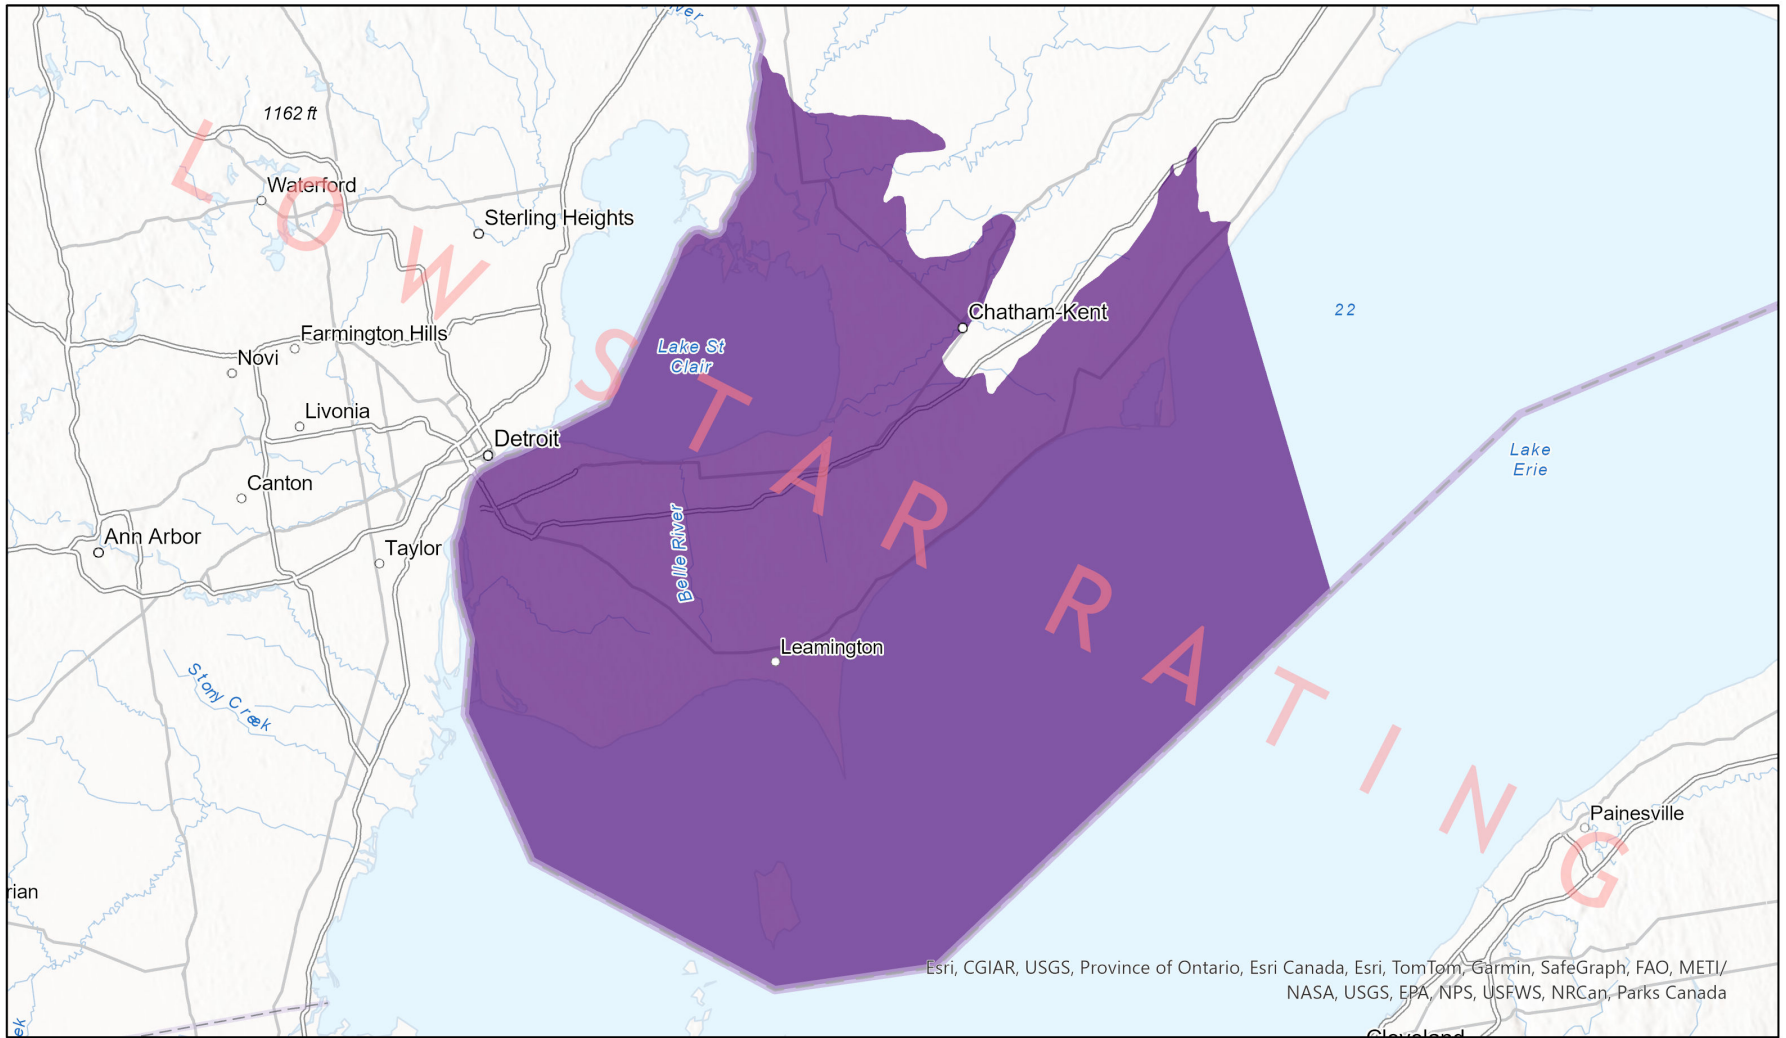

- Present
- Presence Expected
- Historical

## Ecosystem-based Automated Range (EBAR)

Date Generated: April 4, 2024; Version: 1.0; Stage: Expert Reviewed (Low Star Rating- National); Scope: Canadian

Synonyms Used: *Acris crepitans blanchardi*

Input Records - 7 GBIF, 2 iNaturalist.org, 8 ON Element Occurrences, 68 ON Observations and Source Features, 9 VertNet; Expert Reviews - Jeff Hathaway

Map centre: 82.3609° W 42.1925° N

EBAR is relatively coarse scale data and not intended for all applications and analysis. Please see full disclaimer in metadata.

## Ecosystem-based Automated Range (EBAR) Metadata

---

### Species

National Scientific Name:	<i>Acris blanchardi</i> Harper, 1947
Scientific Name Reference:	Frost, D.R. 2020. Amphibian Species of the World: an Online Reference. Version 6.0. American Museum of Natural History, New York, USA. Online: <a href="http://research.amnh.org/herpetology/amphibia/index.html">http://research.amnh.org/herpetology/amphibia/index.html</a>
National English Name:	Blanchard's Cricket Frog
National French Name:	Rainette grillon de Blanchard
Element National ID:	828459
Element Global ID:	828458 ( <a href="#">go to NatureServe Explorer</a> )
Element Code:	AAABC01040
Endemism Type:	N
Canadian COSEWIC Name:	
Canadian COSEWIC ID:	272

## Rank/Status

<b>Global Rank:</b>	G5 (reviewed January 22, 2016)
<b>National Rank (Canada):</b>	NX (reviewed 2022)
<b>Subnational Ranks (Canada):</b>	ON= SX
<b>National Rank (United States):</b>	N5 (reviewed 1996)
<b>Subnational Ranks (United States):</b>	AR=S5, CO=SH, IA=S3?, IL=S5, IN=S4, KS=S4, KY=S5, LA=SNR, MI=S2S3, MN=S1, MO=S5, MS=SNR, NE=S3, NM=S3, OH=S3, OK=SNR, SD=S2, TX=S5, WI=S1, WV=SH
<b>National Rank (Mexico):</b>	None
<b>Subnational Ranks (Mexico):</b>	None
<b>Canadian SARA Status:</b>	Endangered/En voie de disparition (June 05, 2003)
<b>Canadian COSEWIC Status:</b>	Endangered (May 06, 2011)
<b>US ESA Status:</b>	None

## Range Map

<b>Date Generated:</b>	April 04, 2024
<b>Version:</b>	1.0
<b>Stage:</b>	Expert Reviewed (Low Star Rating- National)
<b>Scope:</b>	Canadian
<b>Metadata:</b>	Primary Species - <i>Acris blanchardi</i> Harper, 1947; Synonyms - <i>Acris crepitans blanchardi</i> Harper, 1947 Input Records - 7 GBIF, 2 iNaturalist.org, 8 ON Element Occurrences, 68 ON Observations and Source Features, 9 VertNet; Expert Reviews - Jeff Hathaway
<b>Comments:</b>	This range has a low star rating.
<b>Disclaimer:</b>	Please review our <a href="#">methods document</a> before using EBAR.  EBAR range data are relatively coarse scale and appropriate for screening and education purposes, but are not intended for all types of applications and analysis.  The absence of data in any geographic areas does not necessarily mean that a species is not present.  An ecoshape with a presence value does not necessarily mean that a species is present throughout the entire geographic area.
<b>Presence Definitions:</b>	(Please see Comments above for any exceptions)  Present - the species is found within the ecoshape based on species observation data, Element Occurrences, Source Features, Canadian Federal Critical Habitat, or expert opinion.  Presence Expected - expert opinion the species may be present, or the ecoshape overlapped with a range estimate or a habitat suitability model.  Historical - all species occurrence data within the ecoshape contains observation data greater than 40 years old or an Element Occurrence (EO) that was ranked as Extirpated or Historical (EO Rank of H, H?, X or X?).
<b>Usage Type Definitions:</b>	(Please see Comments above for any exceptions)  Breeding - the species is thought to breed within the ecoshape based on eBird Breeding and Behaviour Codes or expert opinion.  Possible Breeding - the species is probably or possibly breeding within the ecoshape based on eBird, BBA or jurisdiction Breeding and Behaviour Codes, or on expert opinion.
<b>Map Projection:</b>	North America Albers Equal Area Conic (WKID 4269)
