EBAR is relatively coarse scale data and not intended for all applications and analysis. Please see full disclaimer in metadata.

Input Records - 10 ACCDC Observations, 1 iNaturalist.ca; Expert Reviews - John Klymko

## Ecosystem-based Automated Range (EBAR) Metadata

---

### Species

|                            |   |
|----------------------------|---|
| National Scientific Name:  | <i>Catharus minimus minimus</i> (Lafresnaye, 1848)  |
| Scientific Name Reference: | Lepage, D., G. Vaidya, and R. Guralnick. 2014. Avibase - a database system for managing and organizing taxonomic concepts. Zookeys 420:117-135. [As modified by subsequent updates at: <a href="https://avibase.bsc-eoc.org/">https://avibase.bsc-eoc.org/</a> ]. |
| National English Name:     | Gray-cheeked Thrush minimus subspecies  |
| National French Name:      | Grive à joues grises de la sous-espèce minimus  |
| Element National ID:       | 943247  |
| Element Global ID:         | 943246 ( <a href="#">go to NatureServe Explorer</a> )   |
| Element Code:              | ABPBJ18091  |
| Endemism Type:             | N   |
| Canadian COSEWIC Name:     |   |
| Canadian COSEWIC ID:       | 3012  |

## Rank/Status

|                                    |                                |
|------------------------------------|--------------------------------|
| Global Rank:                       | G5T4 (reviewed April 07, 2016) |
| National Rank (Canada):            | NNRB                           |
| Subnational Ranks (Canada):        | NF=SNRB, NS=SNRB, QC=SNRB      |
| National Rank (United States):     | None                           |
| Subnational Ranks (United States): | None                           |
| National Rank (Mexico):            | None                           |
| Subnational Ranks (Mexico):        | None                           |
| Canadian SARA Status:              | None                           |
| Canadian COSEWIC Status:           | Threatened (December 01, 2023) |
| US ESA Status:                     | None                           |

## Range Map

|                         |   |
|-------------------------|---|
| Date Generated:         | March 11, 2025  |
| Version:                | 1.0   |
| Stage:                  | Expert Reviewed (National)  |
| Scope:                  | Canadian  |
| Metadata:               | Primary Species - <i>Catharus minimus minimus</i> (Lafresnaye, 1848)<br>Input Records - 10 ACCDC Observations, 1 iNaturalist.ca; Expert Reviews - John Klymko   |
| Comments:               | None<br><a href="#">Please see spatial data for Ecoshape-level reviewer comments.</a>   |
| Disclaimer:             | Please review our <a href="#">methods document</a> before using EBAR.<br><br>EBAR range data are relatively coarse scale and appropriate for screening and education purposes, but are not intended for all types of applications and analysis.<br><br>The absence of data in any geographic areas does not necessarily mean that a species is not present.<br><br>An ecoshape with a presence value does not necessarily mean that a species is present throughout the entire geographic area.   |
| Presence Definitions:   | (Please see Comments above for any exceptions)<br><br>Present - the species is found within the ecoshape based on species observation data, Element Occurrences, Source Features, Canadian Federal Critical Habitat, or expert opinion.<br><br>Presence Expected - expert opinion the species may be present, or the ecoshape overlapped with a range estimate or a habitat suitability model.<br><br>Historical - all species occurrence data within the ecoshape contains observation data greater than 40 years old or an Element Occurrence (EO) that was ranked as Extirpated or Historical (EO Rank of H, H?, X or X?), or expert opinion that the species is extirpated or historical. |
| Usage Type Definitions: | (Please see Comments above for any exceptions)<br><br>Breeding - the species is thought to breed within the ecoshape based on eBird Breeding and Behaviour Codes or expert opinion.<br><br>Possible Breeding - the species is probably or possibly breeding within the ecoshape based on eBird, BBA or jurisdiction Breeding and Behaviour Codes, or on expert opinion.   |
| Map Projection:         | North America Albers Equal Area Conic (WKID 4269)   |
