

# Ambystoma x 4

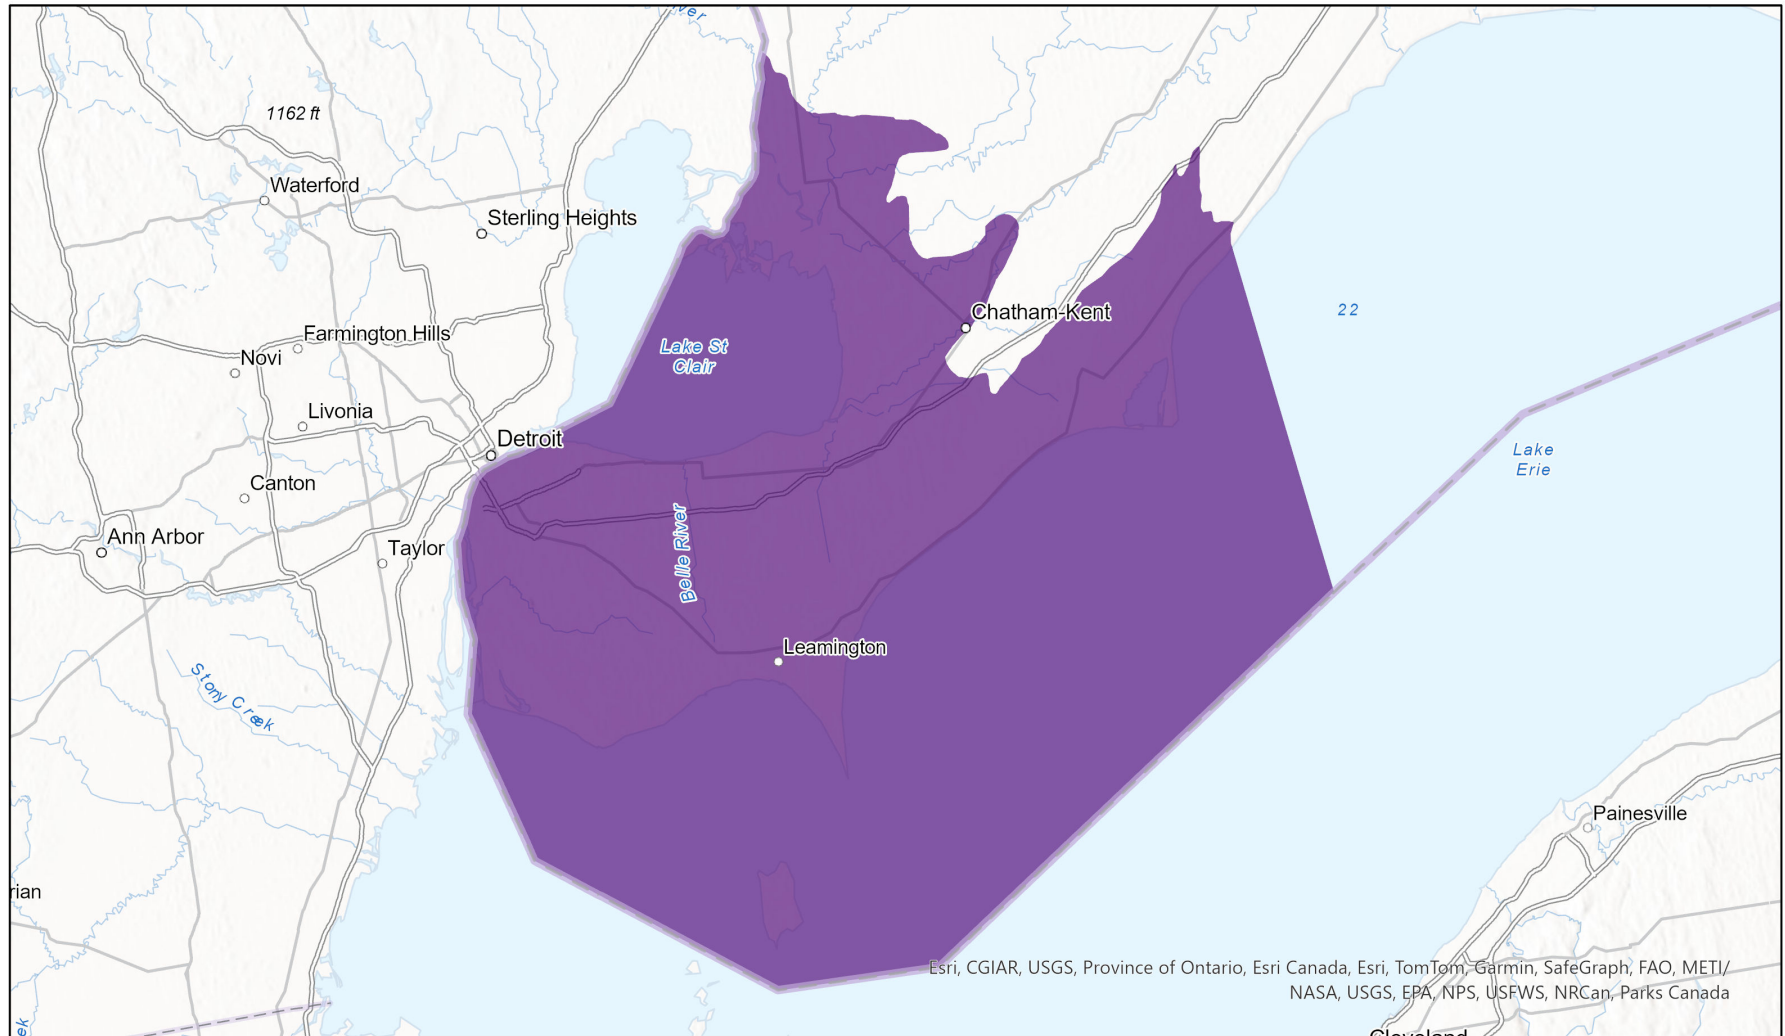

## Ecosystem-based Automated Range (EBAR)

Date Generated: March 28, 2022; Version: 1.0; Stage: Expert Reviewed; Scope: Global

Synonyms Used: None

- Present
- Presence Expected
- Historical

Input Records - 6 ON Element Occurrences, 873 ON Observations and Source Features; Expert Reviews - Mike Burrell

Map centre: 82.3609° W 42.1925° N

EBAR is relatively coarse scale data and not intended for all applications and analysis. Please see full disclaimer in metadata.

## Ecosystem-based Automated Range (EBAR) Metadata

---

### Species

National Scientific Name:	<i>Ambystoma x 4</i>
Scientific Name Reference:	NatureServe. Unpublished. Concept reference for taxa which have not yet been described; to be used as a placeholder until a citation is available which describes the circumscription of the taxon.
National English Name:	Unisexual Ambystoma - Small-mouthed Salamander dependent population
National French Name:	Ambystoma unisexe - Population dépendante de la salamandre à petite bouche
Element National ID:	963966
Element Global ID:	963965 ( <a href="#">go to NatureServe Explorer</a> )
Element Code:	AAAAA01230
Endemism Type:	N
Canadian COSEWIC Name:	
Canadian COSEWIC ID:	1310

## Rank/Status

<b>Global Rank:</b>	GNA (reviewed July 20, 2016)
<b>National Rank (Canada):</b>	N1 (reviewed 2021)
<b>Subnational Ranks (Canada):</b>	ON=S1
<b>National Rank (United States):</b>	None
<b>Subnational Ranks (United States):</b>	None
<b>National Rank (Mexico):</b>	None
<b>Subnational Ranks (Mexico):</b>	None
<b>Canadian SARA Status:</b>	Endangered/En voie de disparition (August 12, 2021)
<b>Canadian COSEWIC Status:</b>	Endangered (April 29, 2016)
<b>US ESA Status:</b>	None

## Range Map

<b>Date Generated:</b>	March 28, 2022
<b>Version:</b>	1.0
<b>Stage:</b>	Expert Reviewed
<b>Scope:</b>	Global
<b>Metadata:</b>	Primary Species Name - <i>Ambystoma</i> x 4 Input Records - 6 ON Element Occurrences, 873 ON Observations and Source Features; Expert Reviews - Mike Burrell
<b>Comments:</b>	None <a href="#">Please see spatial data for Ecoshape-level reviewer comments.</a>
<b>Disclaimer:</b>	Please review our <a href="#">methods document</a> before using EBAR.  EBAR range data are relatively coarse scale and appropriate for screening and education purposes, but are not intended for all types of applications and analysis.  The absence of data in any geographic areas does not necessarily mean that a species is not present.  An ecoshape with a presence value does not necessarily mean that a species is present throughout the entire geographic area.
<b>Presence Definitions:</b>	(Please see Comments above for any exceptions)  Present - the species is found within the ecoshape based on species observation data, Element Occurrences, Source Features, Canadian Federal Critical Habitat, or expert opinion.  Presence Expected - expert opinion the species may be present, or the ecoshape overlapped with a range estimate or a habitat suitability model.  Historical - all species occurrence data within the ecoshape contains observation data greater than 40 years old or an Element Occurrence (EO) that was ranked as Extirpated or Historical (EO Rank of H, H?, X or X?).
<b>Usage Type Definitions:</b>	(Please see Comments above for any exceptions)  Breeding - the species is thought to breed within the ecoshape based on eBird Breeding and Behaviour Codes or expert opinion.  Possible Breeding - the species is probably or possibly breeding within the ecoshape based on eBird, BBA or jurisdiction Breeding and Behaviour Codes, or on expert opinion.
<b>Map Projection:</b>	North America Albers Equal Area Conic (WKID 4269)
